Project objective

Main objective is to strengthen the capacity of forest sector at local, regional and interregional levels through **increased involvement and skills of women actors supporting their equal presence and competences at the labour and timber markets** in the DR.

Specific objectives:

1. The first specific objective aims at **integrating innovative methods and tools for better integration of women into working places and decision-making processes** in the forest sector of DR;
2. The second specific objective aims at **exchanging best practices and increase capacities of the local and regional forest sector** by more active roles of women;
3. The third specific objective aims at **supporting female forest owners in increasing job opportunities and income from their forest and enter new markets.**

Overall, the project offers new and well adapted innovation instruments facilitating the innovation process and supporting more active roles of women in the forest sector.

The objectives will strongly support knowledge transfer, education, collaboration and innovation towards a more resource and energy efficient, and environmentally sustainable DR and thereby addressing crucial macro-regional challenges.

METHODOLOGY TO ACHIEVE PROJECT OBJECTIVES

T1: develop knowledge on the status quo of women in forestry sector and to make a solid basis from existing knowledge and good practice examples.

T1: Collection of needs of women in forestry and active participation of different stakeholders along the wood chains

T2: Innovation roadmap and Action plans

T2: policy framework

T3: Transnational Awareness Raising Campaign Model

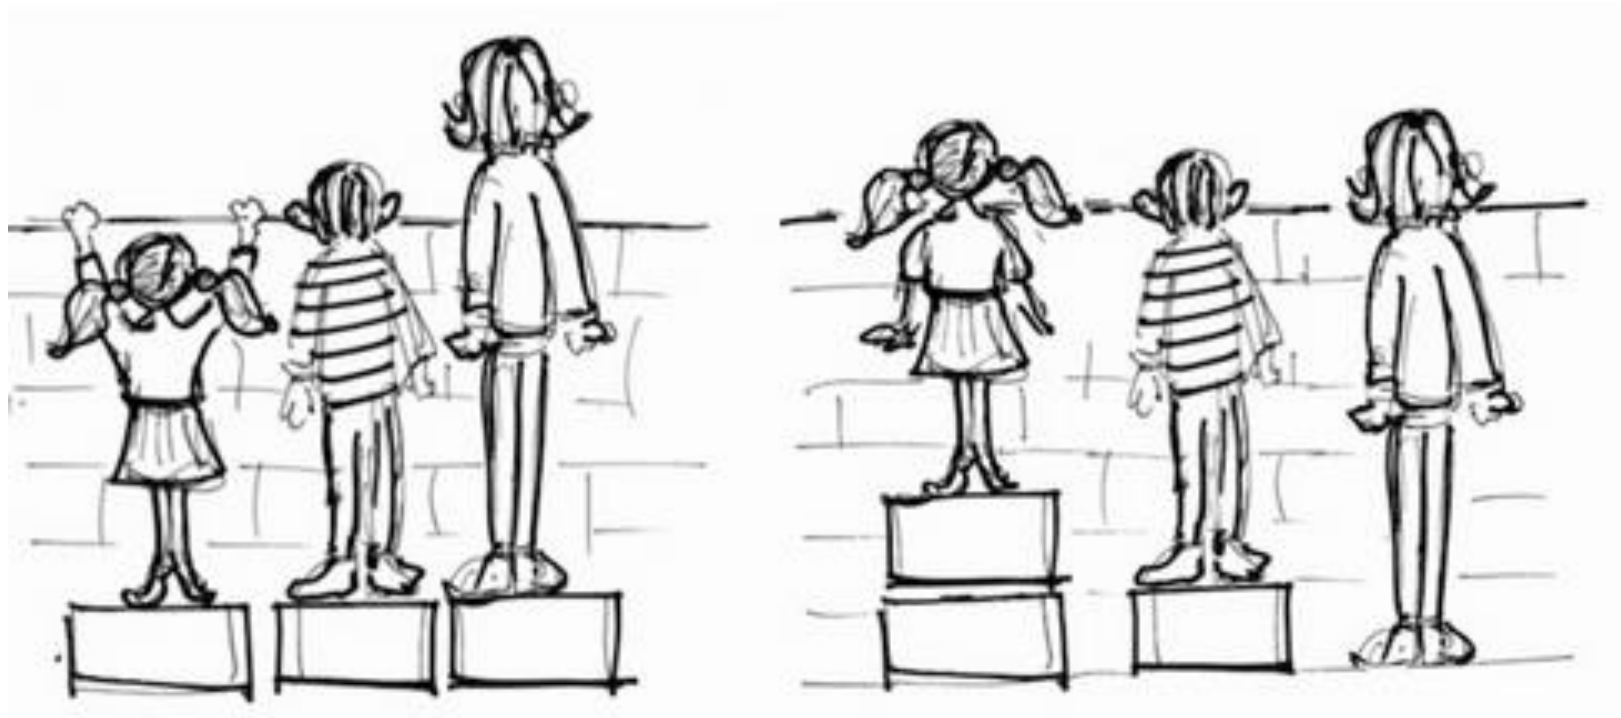

T3: training and mentoring program

T4: Pilot activities in all PP countries

Equal Treatment vs Equality

T1.1.1 Status report

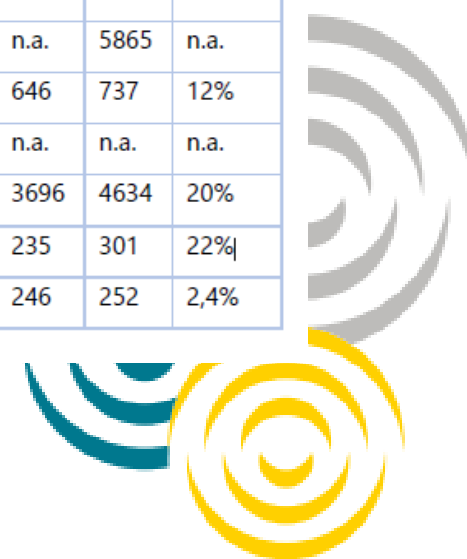

Female in forestry in Danube region

Forests in Women's Hands
20. april ob 11:37 ·

V zadnji objavi na Linkedlnu 📱 smo izvedeli nekaj novega o lastništvu gozdov v Sloveniji 🇸🇮. Tukaj je nekaj zanimivih dejstev o lastnicah gozdov: 🗳️ 📊 🌲

- 🌲 Slovenija ima visok delež lastnih gozdov (41 %) ✓
- 🌲 Ženske v Sloveniji imajo manjša gospodarstva in imajo manj gozdne površine kot moški 📉
- 🌲 poten... [Prikaži več](#)
